#### ABOUT THE ALMANAC

It is very necessary that the students and parents read the Almanac together and understand the contents fully. This Almanac aims at establishing an invaluable link between teachers, students and parents. It is intended to serve:

- 1. As an all-in-one ready reckoner and planner for students
- 2. As a means of communication between parents and the school:
  - ➤ to keep parents abreast with what their children are studying at School and the curricular progress of their wards
  - ➤ to keep parents informed about home assignments to serve as a handy reference with regard to the student's schedule

Students should ensure that they bring this Almanac to school every day, use it productively and treat it with care.

➤ To be used for convenient, day-to-day correspondence (related to academics and conduct) between parents and the school staff.

Parents should review current pages daily and must counter sign and respond to any comments, which may be made periodically by members of the faculty. Parents should also countersign home assignments to signify their completion and provide an explanation if home assignments are not completed for any reason.

As a matter of policy, students will get home tasks on subjects they are familiar with. These tasks are intended as revision exercises, to reinforce what is learned by students in school and must be undertaken by students entirely on their own, without adult supervision. Students should seek the help of their teachers at School on the following day if they encounter any difficulty.

Comments made by parents in the Almanac should be productive and confined strictly to the subject of the student's work and her/his conduct. All other matters concerning the school should be dealt separately either conveyed personally or through separate letters/e-mails addressed to the Head of School.

## PRINCIPAL'S DESK

Welcome to the world of AKSHARDHAM, where education means all round development of the child. This is a school that has a mission to make each child achieve his or her best. We believe that a child will be successful in life if we accept him/her as they are and inspire them to become what they want to become. They want to be liked, appreciated and to be respected for their individuality.

We give lot of importance to make discipline a core value, encourage students to develop a sense of responsibility through a well-planned academic schedule, House system, various Inter School, intra- School competitions and Sports activities. We expect them to do the same at home too like making the beds, keeping the rooms tidy, helping and supporting the family members in the daily chores etc.

The school has a well-planned curriculum so that co-curricular activities also are given due importance. The school Almanac and Personal Booklet give all the important information on school like the routine, rules and regulations, uniform, test schedules, holidays, co-curricular activities and feedback from teachers. The parents should ensure that their ward is actively involved in all activities.

Finally, I want to assure you that the Management and our team of experienced teachers are doing their best to give your child the required edge to make his/her mark in this global world.

With Best Wishes, The Principal

#### **HOME WORK POLICY**

Homework is a constructive tool in the teaching/learning process, geared to the needs and abilities of students, for the reinforcement of matter learned in school. It is also intended to help students develop independent study habits.

Children are expected to spend no more than 60 minutes doing their home assignments, which are the application of our everyday activities. The school tries to assign interesting home assignments based on the matter that has been covered and distributes it uniformly among various subjects per week.

The method of teaching till class III is theme-based. As a policy, homework is given till class I. However, some reinforcement worksheets may be given.

Students should try and do their homework entirely on their own, without the help of their parents. They should develop a regular homework routine, keep their parents informed with respect to homework assignments and show them the finished work.

#### Students should:

Ensure that they are prepared with whatever stationery supplies needed for homework.

Give their parents sufficient notice, if any extra material is needed for projects and other such home assignments, so that these can be acquired without inconvenience.

Create, with the help of their parents, an appropriate environment at home for quiet study without disruption

Earmark a regular block of time for homework. If no homework is assigned, they should maintain the routine, by reviewing class work or reading a book during the time assigned for homework.

Ensure that their homework assignments are completed on time and that all supporting books and materials are carried back to school.

Seek assistance from their parents only when specifically required, as per instructions from their teacher.

Ask their parents, on a daily basis, to review their homework tasks, show them the completed work and ensure that they sign in the student handbook.

Seek their parents' help to list the things they did not understand, so that they can share these with their teacher at school the next day.

#### Little Free Library (Classes IV &V)

Students of Class IV & V get another opportunity to enjoy reading age-appropriate books through their classroom's collection of donated books that operates on Take a Book, leave a Book policy, which in turn is based on the honors system. Students may borrow one book at a time and within the stipulated lending period, return either the same book or some other book of their own in exchange. These exchanges function on the trust that our students will conscientiously take good care of borrowed books and ensure the books they exchange enhance the class library collection. An added objective of this exercise is to inculcate the abilities of responsible management of resources and care for books in our students. The entire process of the book issue and return, care and maintenance is managed by students themselves. These books are issued and returned during the specified class hours. #### Student Health Check-up

Further to fostering academic success, school plays a vital role in improving students' health and social outcomes. In keeping with this adage, the school organizes an annual health check-up for all its students. Conducted by a team of qualified medical experts, the check-up is non-invasive in nature, to assess the child's medical well-being. It aims to identify any health-related issue and to generate awareness on the importance of health and personal hygiene.

The schedule for Annual Health Screening is intimated to parents through Hand Book and school. Parents are requested to ensure their wards' presence in school on the days allocated for the check-up. Health reports of the students are shared through prints and the data is subsequently uploaded on the school website. Parents are recommended to take their ward's health report seriously and take action on any observation/comment made in it. Since this is a screening exercise and not a diagnostic, they are advised to take an opinion of their respective doctors/family physicians for further evaluation.

#### **REWARDS and REPRIMANDS**

The school discipline system is based on the premise that there are consequences for actions. It endeavors to be consistent and fair. For the school community to operate as a safe learning environment where all strive for personal excellence, it is important that clear boundaries are established. While rewards are for motivating the students to sustain good actions and consistently strive for better behavior and efforts, reprimands are in order to check undesired actions on the part of the wrong-doer and to deter other students from doing the same.

1. If my child misses any test, will/they have an average mark based on his/her previous performance?

There is no provision for re-testing students who remain absent on the day of the assessment, or those who have failed in one or more subjects. Neither can average marks be awarded to any student under any circumstance. Only if the child's absence on the day of assessment is on genuine medical grounds, and if the parents have Personally, submitted the leave application along with supporting medical documents that very day at the school office, will the child be allowed to appear for re-test, or/will he be awarded zero for that subject.

No, we do not have formal assessments for children up to Class III. Hence, no prior notice will be sent to the parents. Evaluation of the child's progress is done based on continuous thematic assessments.

3. How would I come to know about the performance of my child?

We organize Open Houses sessions at regular intervals during which the teachers give detailed feedback about your child. Apart from this, please check the answer scripts of formal assessments which are returned to students within a day of the date of assessment. #### Socially Useful Productive Work

(SUPW) - Classes IV-X

SUPW is an integral part of our school curriculum. The idea behind it is to allow our students to give expression to their co-curricular interests and aptitudes. Participation in one of the activities pertaining to SUPW is compulsory. Some of these activities are managed by our own faculty and for some we hire external resource persons. The execution of such activities will depend on the availability of resource persons. Since any particular activity can accommodate only a fixed number of students, activities are allotted to students on a lottery system. Once allotted, students have to compulsorily continue as members of that activity for one academic session.
